Crafting Table

Last Edited: March 31, 2013 at 7:16 AM

Page Tools

A **crafting table** is required for [crafting](#) most items in Minecraft. The crafting table gives the player access to a nine-slot grid for crafting.

When you first start your world in Minecraft you always want to build a crafting table first, because most of the things you need to survive are made in the crafting table (i.e. [pickaxe](#), [sword](#), [armor](#), etc).

Trivia

Usually in most people's shelters in Minecraft, you will more often than not, see their crafting table near their [furnace](#).

The bottom side of the crafting table has the texture of an oak wood plank.
